Liabilities exceed resources, \$1,461 38

We would recommend that the Town raise the sum of \$600 for schools, \$1200 for highways, and \$2000 to defray the other expenses of the Town the ensuing year.

The highways and bridges in the Town have generally been kept in a reasonably safe condition for the past year within the appropriation. There has but one serious accident occurred within the past year. We have planked several bridges and put up some railings, and still our highways are largely deficient in this respect.

We find, from reasons beyond our control, the pauper expenses have been enormous for the past year, which plainly appears in our report. All of which is respectfully submitted.
